Project Design Phase-II Data Flow Diagram & User Stories

Date	17 October 2022
Team ID	PDT2022TMID52562
Project Name	Visualizing and Predicting Heart Diseases with
	an Interactive Dashboard
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored. The Visualizing and Predicting Heart Diseases with an Interactive Dashboard, data flow from user to end.

Data Flow Diagram for Heart Disease Prediction Dashboard:

Flow:

- 1) User creates an account in the application.
- 2) User can view the visualizations of trends in the form of graphs and charts for his/her medical records with the trained dataset.
- 3) User enters the medical records in the dashboard.
- 4) User can view the accuracy of probability of occurrence of heart disease in the dashboard.

User Stories:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Registration	USN-1	As a user, I can register for the application by entering my email, password,etc	I can access my account / dashboard, enter the details	High	Sprint-1
Customer (Web user)		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email	High	Sprint-1
	Login	USN-3	As a user, I can log into the application by entering email & password	I can access my account / dashboard	High	Sprint-1
Customer (Web user)	Dashboard	USN-4	User can view his/her complete medical analysis and accuracy of disease prediction	I can view my medical analysis in the dashboard	High	Sprint-2
		USN-5	User can view the accuracy of occurrence of heart disease	I can view the accuracy of heart disease in the dashboard	High	Sprint-2
Customer (Web user)	Dashboard	USN-6	The User will edit the data and more features	I can see the features add adjusted accordingly.	Medium	Sprint 2

Customer Care	Helpdesk	USN-7	As a customer care executive, he/she can	I can post my queries in	Medium	Sprint-3
Executive			view the customer queries.	the dashboard		
		USN-8	As a customer care executive, he/she can	I can get support from	High	Sprint-3
			answer the customer queries.	helpdesk		
Administrator	User Profile	USN-9	As an admin, he/she can update the health	I can view my updated	High	Sprint-4
			details of users.	health details.		

User Type	Functional	User	User Story / Task	Acceptance criteria	Priority	Release
	Requirement	Story				
	(Epic)	Number				
		USN-10	As an admin, he/she can add or delete users.	I can access my account / dashboard when logged in	High	Sprint-4
		USN-11	As an admin, he/she can manage the user details.	I can view the organised data of myself and add further details.	High	Sprint-4
